INSTRUCTIONS

This report must be filed by Exchange Issuers within 60 days of the end of their first, second and third fiscal quarters and within 140 days of their year end. "Exchange Issuer" means an issuer whose securities are listed and posted for trading on the Canadian Venture Exchange and are not listed and posted on any other exchange or quoted on a trading or quotation system in Canada. Three schedules must be attached to this report as follows:

SCHEDULE A: FINANCIAL STATEMENTS

Financial statements prepared in accordance with generally accepted accounting principles are required as follows:

For the *first, second and third financial quarters*:

Interim financial statements prepared in accordance with section 1751 of the CICA Handbook, including the following: balance sheet, income statement, statement of retained earnings, cash flow statement, and notes to the financial statements.

The periods required to be presented, consistent with CICA Handbook section 1751, are as follows:

- a balance sheet as of the end of the current interim period and a comparative balance sheet as of the end of the immediately preceding fiscal year;
- a statement of retained earnings cumulatively for the current fiscal year-to-date, with a comparative statement for the comparable year-to-date period of the immediately preceding fiscal year; and
- income statements and cash flow statements for the current interim period and cumulatively for the current fiscal year-to-date, with comparative statements for the comparable interim periods (current and year-to-date) of the immediately preceding fiscal year.

For the *financial year end*:

Annual audited financial statements prepared on a comparative basis.

Exchange Issuers with a fiscal year of less than or greater than 12 months should refer to National Policy No. 51 *Changes in the Ending Date of a Financial Year and in Reporting Status* for guidance.

Issuers in the development stage are directed to the guidance provided in CICA Accounting Guideline AcG-11 *Enterprises in the Development Stage* that states "enterprises in the development stage are encouraged to disclose in the income statement and in the cash flow statement cumulative balances from the inception of the development stage."

Issuers that have been involved in a reverse take-over should refer to the guidance found in BCIN #52-701 (previously NIN #91/21) with respect to such transactions including the requirement or disclosure of supplementary information regarding the legal parent's prior financial operations.

SCHEDULE B: SUPPLEMENTARY INFORMATION

The supplementary information set out below must be provided when not included in Schedule A.

1. **Analysis of expenses and deferred costs**
Provide a breakdown of amounts presented in the financial statements for the following: deferred or expensed exploration, expensed research, deferred or expensed development, cost of sales, marketing expenses, general and administrative expenses, and any other material expenses reported in the income statement and any other material deferred costs presented in the balance sheet.

The breakdown should separately present, at a minimum, each component that comprises 20% or more of the total amount for a material classification presented on the face of the financial statements. All other components of a material

classification may be grouped together under the heading "miscellaneous" or "other" in the cost breakdown; the total for "miscellaneous" should not exceed 30% of the total for a material classification.

Breakdowns are required for the year-to-date period only. Breakdowns are not required for comparative periods.

Issuers in the development stage are reminded that Section 3(9)(b) of the BC Securities Commission's Rules requires a schedule or note to the financial statements containing an analysis of each of exploration, research, development and administration costs, whether expensed or deferred and if the issuer is a natural resource issuer, that analysis for each material property. Because the analysis required by Rule 3(9)(b) must be included in the financial statements, the information does not have to be repeated in Schedule B. Consistent with CICA Accounting Guidelines AcG-11, staff considers an issuer to be in the development stage when it is devoting substantially all of its efforts to establishing a new business and planned principal operations have not commenced. Further, in staff's view, the lack of significant revenues for the past two years normally indicates that an issuer is in the development stage.

2. **Related party transactions**
Provide disclosure of all related party transactions as specified in Section 3840 of the CICA Handbook.
3. **Summary of securities issued and options granted during the period**
Provide the following information for the year-to-date period:
 - (a) summary of securities issued during the period, including date of issue, type of security (common shares, convertible debentures, etc.), type of issue (private placement, public offering, exercise of warrants, etc.) number, price, total proceeds, type of consideration (cash, property, etc.) and commission paid, and
 - (b) summary of options granted during the period, including date, number, name of optionee for those options granted to insiders, generic description of other optionees (e.g. "employees",) exercise price and expiry date.
4. **Summary of securities as at the end of the reporting period**
Provide the following information as at the end of the reporting period:
 - (a) description of authorized share capital including number of shares for each class, dividend rates on preferred shares and whether or not cumulative, redemption and conversion provisions,
 - (b) number and recorded value for shares issued and outstanding,
 - (c) description of options, warrants and convertible securities outstanding, including number or amount, exercise or conversion price and expiry date, and any recorded value, and
 - (d) number of shares in each class of shares subject to escrow or pooling agreements.
5. **List the names of the directors and officers as at the date this report is signed and filed.**

SCHEDULE C: MANAGEMENT DISCUSSION AND ANALYSIS

1. **General Instructions**
 - (a) Management discussion and analysis provides management with the opportunity to discuss an issuer's business, current financial results, position and future prospects.

- (b) Focus the discussion on material information, including liquidity, capital resources, known trends, commitments, events, risks or uncertainties, that is reasonably expected to have a material effect on the issuer.
- (c) For an issuer with active ongoing operations the discussion should be substantive (e.g. generally two to four pages in length); for an issuer with limited operations the discussion may not be as extensive (e.g. one page).
- (d) The discussion must be factual, balanced and non-promotional.
- (e) Where the discussion relates to a mineral project, as defined in National Instrument 43-101 "Standards of Disclosure for Mineral Projects," the disclosure must comply with NI 43-101.
2. **Description of Business**
Provide a brief description of the issuer's business. Where an issuer is inactive and has no business, disclose these facts together with a description of any plans to reactivate and the business the issuer intends to pursue.
3. **Discussion of Operations and Financial Condition**
Provide a meaningful discussion and analysis of the issuer's operations for the current year-to-date period presented in the financial statements. Discuss the issuer's financial condition as at the date of the most recent balance sheet presented in the financial statements.
- The following is a list of items that should be addressed in management's discussion and analysis of the issuer's operations and financial condition. This is not intended to be an exhaustive list of the relevant items.
- (a) expenditures included in the analysis of expenses and deferred costs required under Securities Rule 3(9)(b) and Schedule B;
- (b) acquisition or abandonment of resource properties material to the issuer including material terms of any acquisition or disposition;
- (c) acquisition or disposition of other material capital assets including material terms of the acquisition, or disposition;
- (d) material write-off or write-down of assets;
- (e) transactions with related parties, disclosed in Schedule B or the notes to the financial statements;
- (f) material contracts or commitments;
- (g) material variances between the issuer's financial results and information previously disclosed by the issuer, (for example if the issuer does not achieve revenue and profit estimates previously released, discuss this fact and the reasons for the variance);
- (h) material terms of any existing third party investor relations arrangements or contracts including:
- i. the name of the person;
- ii. the amount paid during the reporting period; and
- iii. the services provided during the reporting period;
- (i) legal proceedings;
- (j) contingent liabilities;
- (k) default under debt or other contractual obligations; a breach of corporate, securities or other laws, or of an issuer's listing agreement with the Canadian Venture Exchange including the nature of the breach, potential ramifications and what is being done to remedy it;
- (l) regulatory approval requirements for a significant transaction including whether the issuer has obtained the required approval or has applied for the approval;
- (m) management changes; or
- (n) special resolutions passed by shareholders.
4. **Subsequent Events**
Discuss any significant events and transactions that occurred during the time from the date of the financial statements up to the date that this report is certified by the issuer.
5. **Financings, Principal Purposes and Milestones**
- (a) In a tabular format, compare any previously disclosed principal purposes from a financing to actual expenditures made during the reporting period.
- (b) Explain any material variances and the impact, if any, on the issuer's ability to achieve previously disclosed objectives and milestones.
6. **Liquidity and Solvency**
Discuss the issuer's working capital position and its ability to meet its ongoing obligations as they become due.

How to File Under National Instrument 13-101 – System for Electronic Document Analysis and Retrieval (SEDAR)

BC Form 51-901F Quarterly and Year End Reports are filed under Category of Filing: Continuous Disclosure and Filing Type: Interim Financial Statements or Annual Financial Statements. Schedule A (Financial Statements) is filed under Document Type: Interim Financial Statements or Annual Financial Statements. Schedule B (Supplementary Information) and Schedule C (management Discussion) are filed under Document Type: BC Form 51-901F (previously Document Type Form 61(BC)).

Meeting the Form Requirements

BC Form 51-901F consists of three parts: Instructions to schedules A, B and C, issuer details and a certificate. To comply with National instrument 132-101 it is not necessary to reproduce the instructions that are set out in BC Form 51-901F. A cover page to the schedules titled BC Form 51-901F that includes the issuer details and certificate is all that is required to meet the BC Form 51-901F requirements. The form of the certificate should be amended so as to refer to one or two of the three schedules required to complete the report.

Sultan Minerals Inc.
Quarterly Report
June 30, 2004

Management Discussion and Analysis of Financial Condition For Six Months Ended June 30, 2004 and 2003

The following discussion of the financial position and operating results of the Company for the interim periods ended June 30, 2004 and 2003, should be read in conjunction with the Annual Financial Statements and accompanying Notes for the years ended December 31, 2003 and 2002.

The Management Discussion and Analysis (“MD&A”) contains certain “Forward-Looking Statements.” All statements, other than statements of historical fact included herein, including without limitation, statements regarding potential mineralization and resources and future plans of the Company, are forward-looking statements that involve various risks and uncertainties including changes in future prices of gold, accidents, labour disputes and other risks associated with delays in obtaining governmental approvals or financing or in the completion of development or construction activities, and other factors discussed under “Risk Factors”.

There can be no assurance that such statements will prove to be accurate and actual results and future events could differ materially from those acknowledged in such statements. The effective date of this MD&A is August 27, 2004.

Overview

During the first half of 2004, the activities of Sultan Minerals Inc. (“Sultan”, or the “Company”), focused primarily on the acquisition of mineral property interests in Peru and Nevada. Sultan also entered into a joint venture on its Stephens Lake property in Manitoba. Data from a drilling program completed on the Kena property in the fourth quarter of 2003 was compiled in the first quarter of 2004. A resource was calculated for drilling to date on the Kena property and at the end of the second quarter the Company completed a private placement of 2,400,000 units at a price of \$0.15, each unit comprised of one common share and one share purchase warrant at a price of \$0.20, entitling the holder to acquire one common share. The warrants expire on June 25, 2005.

Sultan is continually investigating new exploration opportunities, and mineral exploration is carried out on properties identified by management as having favourable exploration potential.

Long Term Debt

The Company has no long-term debt.

Sultan Minerals Inc.
Quarterly Report
June 30, 2004

Summary of Quarterly Results

The table below provides, for each of the most recent eight quarters, a summary of exploration costs on a project-by-project basis and of corporate expenses.

	Kena property. British Columbia	Other British Columbia properties	Stephens Lake property, Manitoba	Others	General and administrative expenses (recovery) (Note 1)
2002					
Third Quarter	463,936	--	--	--	82,434
Fourth Quarter	6,358	25,000	523	--	(15,992)
2003					
First Quarter	419	179	58	--	80,998
Second Quarter	6,927	897	2,476	--	146,768
Third Quarter	80,227	782	--	--	63,282
Fourth Quarter	176,979	165	2,281	150	104,431
2004					
First Quarter	18,056	568	1,070	1,942	98,662
Second Quarter	23,855	1,222	2,255	378	176,002

Note 1: General and administrative expenses do not include the write-down of mineral property interests.

Operating Results

Six months ended June 30, 2004 compared to six months ended June 30, 2004

For the six months ended June 30, 2004, ("fiscal 2004"), Sultan incurred a loss of \$273,178 (\$0.00 per common share), compared to \$207,857 (\$0.01 per common share) in the six months ended June 30, 2003 ("fiscal 2003").

Revenue

Sultan has no source of revenue. Interest earned on excess cash is incidental income and is offset against general and administrative expenses.

Expenses

General and administrative expenses totalled \$274,664 in fiscal 2004 compared to \$227,766 in fiscal 2003. Management fees of \$15,000 were paid in both fiscal 2004 and fiscal 2003 to Lang Mining Corporation, a private company owned by the Chairman and director of the Company.

Legal, accounting and audit expenses of \$19,814 were paid in fiscal 2004 compared to \$25,764 in fiscal 2003. The decrease is due to the low activity of the Company due to decreased cash balances. Exploration on the Coripampa 1 and 2 properties may increase accounting and legal fees if exploration results warrant incorporation of subsidiary companies. The Company's annual audit and annual filings are completed in the first half of the fiscal year so shareholder communications and legal, accounting and legal expenses are usually higher in the second quarter of each fiscal year.

Office and administration costs of \$20,431 were paid in fiscal 2004 compared to \$18,517 in fiscal 2003. Office and administration expenses include telephone, courier, and other direct costs, which are incurred in the period. Office and administration costs may increase in the balance of fiscal 2004, as the cost of

Sultan Minerals Inc.
Quarterly Report
June 30, 2004

communication with foreign jurisdictions is much higher than local communication. The Company is planning to commence an exploration program on the Coripampa properties in Peru.

Exploration on any of its mineral property interests is dependent upon obtaining sufficient capital to fund ongoing operations. Salaries and benefits have increased from \$96,214 in fiscal 2003 to \$112,200 in fiscal 2004. Extra costs are incurred for quarterly analysis of expenses and other regulatory reporting requirements and this expenditure category will likely continue to be higher in each quarterly period in fiscal 2004.

During fiscal 2003, \$6,671 in overhead was recovered from Kinross for management of the Kena property exploration program, as compared to no recovery in fiscal 2004. The agreement with Kinross was terminated in June 2003.

Shareholder communications costs have increased from \$60,977 in fiscal 2003 to \$77,184 in fiscal 2004. Transfer agent and filing fees of \$18,056 are included in shareholder communications costs in fiscal 2004, compared with \$17,798 in fiscal 2003, reflecting increases in transfer agent and filing fees. These fees are expected to be higher in fiscal 2004. In fiscal 2003, the Company hired Windward Communications to provide investor relations services and \$18,235 was expended with no comparative expense in fiscal 2004. Investor relation services of \$12,000 were paid to Arbutus Enterprises Ltd. in fiscal 2004, with no comparative expense in fiscal 2003. Other shareholder communications costs include news release dissemination and web site maintenance. The Company is also utilizing the services of Robin Merrifield for shareholder relations and corporate development. In fiscal 2004, \$12,143 has been paid to Mr. Merrifield, with no comparative expense in fiscal 2003. Other shareholder communications costs include news release dissemination, annual report and meeting costs, brochure printing and preparation and web site maintenance.

In fiscal 2004 the Company expended \$4,140 on mineral property investigations compared to \$2,724 in fiscal 2003. The Company is presented with mineral properties and the property details are reviewed to determine if further investigation is required. If an interest in a mineral property is acquired, the property investigation costs are capitalized. These capitalized costs are reviewed on a regular basis to determine the likelihood of recovery, and costs are written down where appropriate.

Depending upon the ability of the Company to raise sufficient funds to carry out its projected exploration plans, the Company expects administrative expenses for fiscal 2004 to remain at approximately the same level as fiscal 2003.

The Company will be evaluating the Coripampa Properties in the third quarter of fiscal 2004, and further analysis is planned for the Company's Kena property.

Three months ended June 30, 2004, compared to three months ended June 30, 2003

For the three months ended June 30, 2004, ("Q2 2004"), Sultan incurred a loss of \$176,002 (\$0.00 per common share), compared to \$133,514 (\$0.00 per common share) in the six months ended June 30, 2003 ("Q2 2003").

General and administrative expenses totalled \$176,002 in Q2 2004 compared to \$144,736 in Q2 2003. Management fees of \$7,500 were paid in both Q2 2004 and Q2 2003 to Lang Mining Corporation, a private company owned by the Chairman and director of the Company.

Legal, accounting and audit expenses of \$13,736 were paid in Q2 2004 compared to \$22,427 in Q2 2003. The Company's audit and tax return are finalized in the second quarter of the year. Legal fees are lower

Sultan Minerals Inc.
Quarterly Report
June 30, 2004

in Q2 2004 as the Company has had low activity levels and as a result, legal fees have decreased. Office and administration costs of \$10,490 were paid in Q2 2004 compared to \$12,963 in Q2 2003. Office and administration expenses include telephone, courier, and other direct costs, which are incurred in the period. Office and administration costs may increase in the balance of fiscal 2004, as the cost of communication with foreign jurisdictions is much higher than local communication. Salaries and benefits have increased from \$56,045 in Q2 2003 to \$74,152 in Q2 2004. Salaries and wages include preparation time relating to the Company's year-end financial statements and the Q1 2004 quarterly report. The Company is planning to commence an exploration program on the Coripampa properties in Peru. Exploration on any of its mineral property interests is dependent upon raising capital or obtaining sufficient capital to fund ongoing operations.

During Q2 2003, \$2,032 in overhead was recovered from Kinross for management of the Kena property exploration program, as compared to \$nil in Q2 2004. The agreement with Kinross was terminated in June 2003.

Shareholder communications costs have increased from \$38,992 in Q2 2003 to \$50,699 in Q2 2004. Transfer agent and filing fees of \$14,013 are included in shareholder communications costs in Q2 2004, compared with \$12,448 in Q2 2003, reflecting increases in filing fees. In fiscal 2003, the Company hired Windward Communications to provide investor relations services and \$9,548 was expended in Q2 2003 with no comparative expense in Q2 2004. Investor relation services of \$6,000 were paid to Arbutus Enterprises Ltd. in Q2 2004, with no comparative expense in Q1 2003. The Company is also using the services of Robin Merrifield for shareholder communications and corporate development. In Q2 2004, \$9,000 was paid to Mr. Merrifield, with no comparative expense in Q2 2003. Other shareholder communications costs include news release dissemination, annual report and meeting costs, brochure printing and preparation and web site maintenance. The annual meeting mailing and preparation of mailing materials and printing is incurred in the second quarter of each fiscal year.

In Q2 2004 the Company expended \$1,366 on mineral property investigations compared to \$2,250 in Q2 2003. The Company is presented with mineral properties and the property details are reviewed to determine if further investigation is required. If an interest in a mineral property is acquired, the property investigation costs are capitalized. These capitalized costs are reviewed on a regular basis to determine the likelihood of recovery, and costs are written down where appropriate.

Depending upon the ability of the Company to raise sufficient funds to carry out its projected exploration plans, the Company expects expenses for fiscal 2004 to remain at approximately the same level as fiscal 2003. The Company will be evaluating the Coripampa Properties in fiscal 2004.

Financing Activities and Capital Expenditures

Unrestricted cash on hand at June 30, 2004, was \$339,825 (December 31, 2003 - \$246,899). At June 30, 2004, Sultan's working capital was \$257,676, as compared to \$298,982 at December 31, 2003. All of Sultan's cash and cash equivalents are held in redeemable certificates of deposit and in bank accounts.

Sultan Minerals Inc.
Quarterly Report
June 30, 2004

Financing Activities

During fiscal 2004, the Company has completed a brokered private placement financing of 2,400,000 units (the "Units") at a price of \$0.15 per Unit for gross proceeds of \$360,000. Each Unit is comprised of one common share in the capital of Sultan and one non-transferable share purchase warrant. Each share purchase warrant entitles the holder to purchase one additional common share of Sultan at an exercise price of \$0.20 per share, expiring June 25, 2005. An administration fee of \$3,000, a cash finder's fee equal to 7.85% of the gross proceeds raised, non-transferable agent's finder's fee warrants, having the same terms as described above, equal to 20% of the total number of Unit sold, and 3,500 agent's finder's fee units, having the same terms as the Units described above was paid to Canaccord Capital Corporation.

All shares, warrants and any shares issued upon exercise of the warrants with respect to the private placement and agent's compensation are subject to a hold period and may not be traded for a four months period ending October 26, 2004.

Proceeds from the private placement will be used to fund exploration programs on the Company's Coripampa 1 and 2 silver and gold properties situated in Peru, the Kena gold property in British Columbia and for general working capital.

During fiscal 2004, 25,000 warrants were exercised at a price of \$0.28.

All of Sultan's short to medium-term operation and exploration cash flow must be derived from external financing. Sultan believes it will be able to raise sufficient capital to fund ongoing operations for at least the next year. Actual funding may vary from what is planned due to a number of factors, the most significant of which would be the progress of exploration and development on its current properties. In the event that changes in market conditions prevent Sultan from obtaining additional external financing if required, it will need to review its current property holdings and prioritize project exploration with cash availability. Cash payments due on property options may not be made, and unless agreements to extend the terms are made with the optionors, the properties may be returned to the optionor.

Investing Activities

Kena Property, British Columbia

The Company holds 100% of the original Kena Property claims located near the community of Ymir in southeastern British Columbia. During Q1 2004, 50,000 common shares were issued at a price of \$0.215 per share as an option payment on the Athabasca claims.

During fiscal 2004, the Company expended \$41,911 in exploration costs on the Kena property compared to \$7,346 in fiscal 2003. The expenditures on the Kena property in fiscal 2004 include the following: assays and analysis – \$6,523 (fiscal 2003 - \$2,042 recovery); geological and geophysical – \$30,657; fiscal 2003 – \$7,552); travel and accommodation – \$495 (fiscal 2003 - \$1,616); and site activities – \$4,236 (fiscal 2003 – \$220). Acquisition costs of \$49,426 (fiscal 2003 - \$40,265) were incurred..

Sultan has received an initial resource calculation on the Gold Mountain and Kena Gold Zones of its Kena Property. Modeling, QAQC evaluations and resource calculations were done by Independent Qualified Person Gary Giroux, P.Eng., MASc., and the accompanying 43-101 Technical Report was co-authored by Gary Giroux, P.Eng. and Linda Dandy, P.Geo.

Over both gold zones, resource calculations have been determined using cut off grades ranging from 0.0 to 4.0 g Au/t (see Tables I & II). Management believes that a cut off grade of 0.5 g/t gold is realistic for an open pit mining operation at current gold prices. Using a 0.5 g/t gold cut-off the results of this initial resource calculation may be summarised as follows:

Sultan Minerals Inc.
Quarterly Report
June 30, 2004

Gold Mountain Zone:

Measured + Indicated = 5,490,000 tonnes at 1.04 g/t (184,000 ounces gold)
Inferred = 10,710,000 tonnes at 0.967 g/t (333,000 ounces gold)

Kena Gold Zone:

Measured + Indicated = 6,330,000 tonnes at 0.969 g/t (197,000 ounces gold)
Inferred = 1,440,000 tonnes at 1.216 g/t (56,000 ounces gold)

Computer modelling done as part of the resource study indicates numerous untested areas adjacent to mineralized blocks. The report recommends that a \$1.27 million diamond drill program be conducted in order to significantly expand resources in the Gold Mountain and Kena Gold Zones.

Both the Gold Mountain and Kena Gold Zones contain bimodal gold mineralization where the entire lengths of the drill holes often average between 0.3 g Au/t to greater than 1.0 g Au/t, and may contain one or more 1-2 metre intercepts of greater than 10 g Au/t (see previous news releases from 2001-2003). The high-grade gold intervals have an important positive impact on the overall grade of the surrounding lower grade porphyry style mineralization. Details of the report were disclosed in the Company's news release dated June 7, 2004, which can be found on the Company's website: www.sultanminerals.com and also on www.sedar.com. The report has also been filed on the two websites.

The report recommends that a \$1.27 million diamond drill program be conducted in order to significantly expand resources in the Gold Mountain and Kena Gold Zones. As well, directional drilling to test for increased grade will be conducted in both zones. Diamond drilling is also recommended for several other target areas on the large Kena Property, most significantly on the South Gold Zone where a third porphyry gold mineralized zone (similar to Kena and Gold Mountain) has been identified.

Commencement of the 2004 exploration program is dependent upon financing.

Various property agreements have been entered into on properties contiguous to the initial Kena claims. These option agreements include the Starlight Claim Group, the Daylight Claim Group, the Cariboo claims, the Silver King Claim Group and the Athabasca claim Group.

Willi Claims, Nevada

During Q1 2004, Sultan entered into a purchase agreement with an individual from Sparks, Nevada, U.S.A. to acquire a 100% interest in 20 lode mining claims, WILLI 1 through WILLI 20, (the "WILLI Property"), located in Sections 25, 26 & 36, Township 19N, Range 34E, Churchill County, Nevada, U.S.A. Under the terms of the agreement, Sultan issued 50,000 common shares at a price of \$0.26 per share to the seller to acquire a 100% interest in the Willi Property. The Company has expended \$13,000 on acquisition costs and \$2,175 on geological expenses on the Willi claims to date in fiscal 2004.

Sultan is planning a surface exploration program of geological mapping, geochemistry and geophysical surveying on the WILLI Property in order to define targets for reverse-circulation drill testing.

Coripampa Properties, Peru

Sultan has entered into an option agreement with a Peruvian partnership to acquire a 100% interest in the Coripampa 1 Silver Property consisting of four mineral concessions (600 hectares) located in zone 18 of Huaynacotas District, La Unión Province of the Arequipa Department and the Coripampa 2 Gold & Silver Property consisting of six mineral concessions (700 hectares) located in zone 18 of Districts Pampamarca/Coronel Castañeda, of the provinces of LaUnion/Parinacochas at the Arequipa/Ayacucho Departments in the Republic of Peru.

Sultan Minerals Inc.
Quarterly Report
June 30, 2004

Sultan is planning a program of geological mapping, trenching and geochemical sampling to define targets for possible drill testing on both the Coripampa 1 Silver Property and Coripampa 2 Gold & Silver Property.

Under the terms of the agreement the Company has agreed to make total cash payments of US\$265,000 and to issue 850,000 common shares to the optionor over a 54-month period. During fiscal 2004, the first year of the agreement, Sultan will make cash and share payments to the optionor consisting of US\$20,000 (US\$5,000 paid) and 100,000 common shares, respectively. Subsequent to June 30, 2004, a finder's fee of 15,000 common shares is to be paid to an arms-length finder in connection with this transaction.

Stephens Lake Property, Manitoba

In fiscal 2004, the Company has expended \$14,826 on acquisition costs and \$3,325 on geological and geophysical expenses compared to \$3,057 on geological and geophysical expenses in fiscal 2003.

The Stephens Lake - Trout Claim Group is 75 kilometres in length and is situated 100 kilometres east of Gillam, Manitoba. The property is entirely covered by unconsolidated tills, alluvial sediments and a thin veneer of Paleozoic sediments, below which the geology is believed to consist of rocks belonging to the extension of the Thompson Nickel Belt. The Thompson Nickel Belt is one of the most important nickel producing regions in the world with production plus reserves in excess of 170 million tonnes.

In February the Optionees entered into an agreement with BHP Billiton, whereby BHP Billiton has been granted the option to acquire an initial 51% undivided interest in the Stephens Lake property and subsequently, an additional 19%. BHP Billiton is currently flying magnetic and electromagnetic surveys over the expanded property. This work is expected to generate targets for diamond drill testing. The Company acquired a 30,000-hectare mineral lease in northern Manitoba by staking. The Company entered jointly with Cream Minerals Ltd ("Cream") and ValGold Resources Ltd. (ValGold") (the "Companies") into an agreement with BHP Billiton Diamonds Inc. ("BHP") whereby BHP has been granted options to acquire an initial 51% interest in three Mineral Exploration Licenses (Numbers 64, 65 and 66) totalling 92,194 hectares of mineral property held by the Companies in the Province of Manitoba.

In order to facilitate the exploration of the property, the Companies have agreed to pool their respective properties so that each will hold an undivided one-third interest in all three of the exploration licenses subject to the BHP agreement. The combined property is referred to as the Stephens Lake Property.

Under the terms of the agreement the Companies have granted to BHP options (the "BHP Options") to acquire firstly, a 51% undivided interest in the Stephens Lake Property (the "First Option") and secondly, a 19% undivided interest in the property (the "Second Option"). BHP has agreed to fund all exploration expenditures on the property until the BHP Options are either terminated or fully exercised.

In order to exercise the First Option, BHP must incur exploration expenditures of \$1,000,000 on the property within five years following the effective date of the agreement. This includes a firm commitment of \$100,000 in exploration expenditures to be incurred in the first year following the effective date. In order to exercise the Second Option, BHP must complete a feasibility study for the project on or before the 10th anniversary of the effective date. In the event that BHP exercises both options, a joint venture will be formed and the Companies shall thereupon have the following working interests in the joint venture - BHP - 70%; the Company - 10%; Cream - 10%, and ValGold - 10%. In the event that BHP exercises the First Option but chooses not to exercise the Second Option, or does not exercise the Second Option by the due date, then the Companies shall thereupon have the following working interests in the joint venture - BHP - 51%; the Company - 1/3 of 49%; Cream - 1/3 of 49%; and ValGold - 1/3 of 49%. If, after the joint venture is formed, a party's interest falls to 10% or less, for inability to finance their share of the joint venture or other reasons, that party's interest will convert to a 1% net smelter royalty.

Sultan Minerals Inc.
Quarterly Report
June 30, 2004

Subsequent to June 30, 2004, the Company, Cream Minerals Ltd. and ValGold Resources Ltd. (the "Optionees") have jointly entered into an agreement (the "Agreement") with 4378831 Manitoba Ltd. (the "Optionor") to option a 75% interest in two (2) staked claims namely the Trout and Trout 1 claims located approximately 130 km east of Gillam, Manitoba (the "Trout Claim Group") and encompassing an area of 256 hectares. The Trout Claim Group is contiguous with and encompassed by the Stephens Lake Claim Group, which is held by the Optionees and currently under option to BHP Billiton. Under the terms of the Agreement the Optionees have agreed to make total cash payments of \$110,000 (\$3,333 paid) and issue 200,001 common shares (66,667 shares in the capital of each of the Company, Cream Minerals Ltd., and ValGold Resources Ltd.) (16,667 issued subsequent to June 30, 2004) to the Optionor over a 36-month period. In addition, the Optionees must also incur exploration expenses and activities of no less than \$5,000 within one year following Regulatory Approval, \$50,000 cumulative prior to the second anniversary of Regulatory Approval and \$250,000 cumulative prior to the third anniversary of Regulatory Approval.

Upon the vesting of the 75% interest as set out above, the Optionees and the Optionor shall enter into a 75:25 Joint Venture for the further exploration and development of the Trout Claim Group.

All required payments, whether shares, cash or work commitments, required to maintain the option agreements on its mineral property interests in good standing, have been made by the Company to date. Share issuances are required to be made on several properties throughout fiscal 2004. The share price recorded for all property acquisitions is the closing price of the Company's shares on the TSX Venture Exchange on the date that the share payment is due.

Uncertainties and Risk Factors

The uncertainties and risks affecting Sultan's activities are discussed in the Annual MD&A.

Critical Accounting Policies

The Company continues to follow the accounting policies described in the audited financial statement for the year ended December 31, 2003, that were mailed to shareholders in May of 2004.

Outlook

In June 2004, Sultan completed a resource study on its Kena Property near Ymir, British Columbia. This study is expected to provide information on the size and configuration of the Kena and Gold Mountain zone deposits that will direct future drill programs and lead to the expansion of the two deposits.

In August 2004 Sultan commenced a mapping and sampling program on the Coripampa 1 and 2 properties in Peru. A program is also planned for the Willi silver property in Nevada but to date no work has been started.

Airborne geophysical surveys are currently being completed by BHP Billiton Diamonds Inc. over the Stephens Lake copper-nickel property in Manitoba. This work is expected to generate targets for diamond drill testing by year-end.

The Company's independent auditor has not performed a review of these financial statements.

SULTAN MINERALS INC.

(an exploration stage company)

Notes to the Financial Statements

For the six months ended June 30, 2004 and 2003

1. Going concern and nature of operations

Sultan Minerals Inc. (the "Company") is incorporated under the Business Corporations Act (British Columbia), and its principal business activity is the exploration and development of mineral properties in Canada.

These financial statements have been prepared on a going-concern basis, which implies that the Company will continue realizing its assets and discharging its liabilities in the normal course of business. Accordingly, these financial statements do not reflect adjustments to the carrying value of assets and liabilities and balance sheet classifications used that would be necessary if going concern assumptions were not appropriate. Some adjustments could be material.

As disclosed in the financial statements, the Company has working capital as at June 30, 2004, of \$257,676 (December 31, 2003 - \$298,982) and an accumulated deficit of \$10,004,929 (December 31, 2003 - \$9,731,751).

The Company has capitalized \$2,868,692 in acquisition and related costs on the Kena property, the Stephens Lake property, Coripampa 1 and 2, and the Willi Claims.

Without additional external funding to meet existing obligations and to finance further exploration and development work on its mineral properties, there is substantial doubt as to the Company's ability to continue as a going concern. Although the Company has been successful in raising funds to date, there can be no assurance that additional funding will be available in the future. The financial statements do not reflect the adjustments to the carrying values of assets and liabilities that would be necessary if the Company were unable to achieve profitable mining operations or obtain adequate financing.

The Company is in the process of exploring its mineral property interests and has not yet determined whether its mineral property interests contain mineral reserves that are economically recoverable.

Although the Company has taken steps to verify title to mineral properties in which it has an interest, in accordance with industry standards for the current state of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements and non-compliance with regulatory requirements.

2. Basis of presentation

The interim financial statements are prepared in accordance with Canadian generally accepted accounting principles applicable to interim financial statements. They follow accounting policies and methods of their application consistent with the annual financial statements as at December 31, 2003, but they do not conform in all respects with the disclosure requirements of generally accepted accounting principles for annual financial statements. Accordingly, they should be read in conjunction with the Company's December 31, 2003 annual financial statements.

The Company's independent auditor has not performed a review of these financial statements.

SULTAN MINERALS INC.

(an exploration stage company)

Notes to the Financial Statements

For the six months ended June 30, 2004 and 2003

3. Mineral property interests

(a) Stephens Lake Property, Manitoba, Canada

The Company acquired a 30,000-hectare mineral lease in northern Manitoba by staking. The Company entered jointly with Cream Minerals Ltd ("Cream") and ValGold Resources Ltd. (ValGold") (the "Companies") into an agreement with BHP Billiton Diamonds Inc. ("BHP") whereby BHP has been granted options to acquire up to a 70% interest in three Mineral Exploration Licenses (Numbers 64, 65 and 66) totaling 92,194 hectares of mineral property held by the Companies in the Province of Manitoba.

In order to facilitate the exploration of the property, the Companies have agreed to pool their respective properties so that each will hold an undivided one-third interest in all three of the exploration licenses subject to the BHP agreement. The combined property is referred to as the Stephens Lake Property.

Under the terms of the agreement the Companies have granted to BHP options (the "BHP Options") to acquire firstly, a 51% undivided interest in the Stephens Lake Property (the "First Option") and secondly, a 19% undivided interest in the property (the "Second Option"). BHP has agreed to fund all exploration expenditures on the property until the BHP Options are either terminated or fully exercised.

In order to exercise the First Option, BHP must incur exploration expenditures of \$1,000,000 on the property within five years following the effective date of the agreement. This includes a firm commitment of \$100,000 in exploration expenditures to be incurred in the first year following the effective date. In order to exercise the Second Option, BHP must complete a feasibility study for the project on or before the 10th anniversary of the effective date. In the event that BHP exercises both options, a joint venture will be formed and the Companies shall thereupon have the following working interests in the joint venture - BHP - 70%; the Company - 10%; Cream - 10%, and ValGold - 10%. In the event that BHP exercises the First Option but chooses not to exercise the Second Option, or does not exercise the Second Option by the due date, then the Companies shall thereupon have the following working interests in the joint venture - BHP - 51%; the Company - 1/3 of 49%; Cream - 1/3 of 49%; and ValGold - 1/3 of 49%. If, after the joint venture is formed, a party's interest falls to 10% or less, for inability to finance their share of the joint venture or other reasons, that party's interest will convert to a 1% net smelter royalty.

(b) Willi Claims, Nevada, United States

The Company entered into a purchase agreement with an individual from Sparks, Nevada, U.S.A. to acquire a 100% interest in 20 Lode Mining Claims, Willi 1 through Willi 20, (the "Willi Claims"), located in Sections 25, 26 & 36, Township 19N, Range 34E, Churchill County, Nevada, U.S.A. Under the terms of the Agreement, the Company has issued 50,000 common shares at \$0.26 to the individual.

The Company's independent auditor has not performed a review of these financial statements.

SULTAN MINERALS INC.

(an exploration stage company)

Notes to the Financial Statements

For the six months ended June 30, 2004 and 2003

3. Mineral property interests (continued)

(c) Coripampa 1 and 2, Peru

The Company entered into an option agreement with a Peruvian partnership to acquire 100% of the Coripampa 1 Silver Property consisting of four mineral concessions (600 hectares), located in zone 18 of Huaynacotas District, La Unión Province of the Arequipa Department and the Coripampa 2 Gold & Silver Property consisting of 6 mineral concessions (700 hectares), located in zone 18 of Districts Pampamarca/Coronel Castañeda, in the provinces of La Unión/Parinacochas in the Arequipa/Ayacucho Departments in the Republic of Peru. Under the terms of the agreement, the Company has agreed to make total cash payments of US\$265,000 and issue 850,000 common shares to the optionor over a 54-month period following receipt of regulatory approval of the agreement. A 3.0% NSR and 300,000 common shares will be payable to the optionors upon completion of a positive feasibility study or upon commencement of commercial production, whichever occurs first. The Company will have the right to purchase 50% of the NSR for US\$1,800,000 at any time up to 120 days after the commencement of commercial production. Subsequent to June 30, 2004, a finder's fee of 15,000 common shares is to be paid to an arm's-length finder in connection with this transaction.

(d) Mineral Property Interests Commitments

To maintain its mineral property interests the Company is required to make cash payments of \$182,500 and issue 423,750 common shares in fiscal 2004. Pursuant to the option agreements, cash payments of \$25,000 have been made and 180,000 common shares have been issued in 2004.

4. Investments

Name of Company	Number of Shares	Book Value March 31, 2004	Book Value December 31, 2003
Emgold Mining Corporation	6,020	\$ 3,913	\$ 3,913
LMC Management Services Ltd.	1	1	1
		\$ 3,914	\$ 3,914

The quoted market value of Emgold Mining Corporation as at June 30, 2004 was \$5,719 (December 31, 2003 - \$8,428).

The Company's independent auditor has not performed a review of these financial statements.

SULTAN MINERALS INC.

(an exploration stage company)

Notes to the Financial Statements

For the six months ended June 30, 2004 and 2003

7. Subsequent events

Subsequent to June 30, 2004,

- (a) The Company, Cream Minerals Ltd. and ValGold Resources Ltd. (the "Optionees") have jointly entered into an agreement (the "Agreement") with 4378831 Manitoba Ltd. (the "Optionor") to option a 75% interest in two (2) staked claims namely the Trout and Trout 1 claims located approximately 130 km east of Gillam, Manitoba (the "Trout Claim Group") and encompassing an area of 256 hectares. The Trout Claim Group is contiguous with and encompassed by the Stephens Lake Claim Group, which is held by the Optionees and currently under option to BHP Billiton. Under the terms of the Agreement the Optionees have agreed to make total cash payments of \$110,000 (\$3,333 paid) and to issue 200,001 common shares (66,667 shares in the capital of each of the Company, Cream Minerals Ltd., and ValGold Resources Ltd.) to the Optionor over a 36-month period (16,667 issued). In addition, the Optionees must also incur exploration expenses and activities of no less than \$5,000 within one year following Regulatory Approval, \$50,000 cumulative prior to the second anniversary of Regulatory Approval and \$250,000 cumulative prior to the third anniversary of Regulatory Approval.

Upon the vesting of the 75% interest as set out above, the Optionees and the Optionor shall enter into a 75:25 Joint Venture for the further exploration and development of the Trout Claim Group.

- (b) The Company issued 3,045,000 stock options to directors, officers, employees and consultants at a price of \$0.15 per share, expiring July 6, 2009.

The Company's independent auditor has not performed a review of these financial statements.
